DETAILED ACTION

This is in response to a letter for patent filed on January 18th, 2002 in which claims 1-16 were presented for examination. A preliminary amendment has been filed on January 18th, 2002 In which claim 1, 8, 9, 14-16 have been canceled and claims 17 and 18 have been added to the letter. Claims 2-7, 10-13, 17 and 18 are Pending in the letter

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2-6, 17 and 18, drawn to cryptographic method, classified in class 705, subclass 53.
 - II. Claims 7, 10-13, drawn to printer to print document, classified in class 705, subclass 57.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions and cryptographic method and a printer for printing document.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Richard Berg on July 13th, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
